

Immigrants Make New Jersey Stronger

Help us create a fairer and more welcoming New Jersey for all by passing the Values Act.

WHAT IS THE VALUES ACT?

No one should have to live in fear that routine interactions with public health, education, and safety agencies could lead to permanent separation from their loved ones. This is what the **VALUES ACT (S512/A1986)** would help protect against. Tell the New Jersey Legislature: We must strengthen the separation between our state and local agencies and federal immigration enforcement (ICE) to ensure New Jersey residents can seek the protection and support their families need without fear of detention or deportation. Immigrants make our communities stronger and deserve to live in safety. New Jersey must immediately advance and sign S512/A1986 into law.

CALL YOUR LAWMAKERS AND TELL THEM:

Hi, my name is [YOUR NAME.] I am a New Jersey resident and I am calling to urge you to advance the New Jersey Values Act (S512/A1986).

Every day that we fail to pass the Values Act is another day that immigrant New Jerseyans have to live in fear that an emergency room visit or a school drop-off will lead to family separation.

I urge you to pass the Values Act now and stand in solidarity with immigrant communities across the state.
